

STBCET is always trying to get new practices to develop students in all respect and make them employable.

1. With the technical skill we taking care of environment and teach our student cultural values.
2. To make our student employable online soft skill sessions and online teaching learning process in this world pandemic situation.

1) STBCET always prefers for technology with caring of environment and social service. For balancing the technology development and environment conditions. To develop technical skill TulTech is organized in every year. In the academic year 2020-21, college conducted TulTech -2021 in online mode as the pandemic out. This event helps to explore their knowledge and skill. In this, events like Paper Presentation, Poster Presentation, Project exhibition, Gaming etc. are conducted. On the other hand to maintain the environment balance in the growing industrialization and global warming, college planting the trees every year nearly 500 hundred sample. In the academic year 2020-21 college has planted 600 hundred trees in college campus and hostel campus. College also formed one special committee for sampling and taking care. In the committee two peons are dedicated duties for water supply and taking care of it. Also to maintain the cultural values in the new era college organizing various cultural events every year. For the celebration and planning, college formed the committee of 2 staff members. In academic year 2020-21 college celebrates Ganesh Festival, Shivjayanti, women's day etc. and all national leaders birth anniversaries. On the occasion college organized online Rangoli competition, online poster presentation, online drawing etc. to celebrate the cultural events in the pandemic also.

2) STBCET college is situated in rural area of Maharashtra and so college focusing on organizing the soft skill and value added courses to students for increasing the employability skills of students. In the academic year 2020-21 as pandemic situation college organized online sessions of webinar for students. The online sessions includes aptitude training, interview skills, and personality development and carrier path in IT by industry expert person or alumina of college.

Also as pandemic situation in world STBCET adopted the online teaching learning via YouTube link or video's of teachers sharing to students on various social media platform like what's app. Also the college faculty using the online meet platform like zoom, Google meet, techmint for teaching learning process. For the analysis of online platform reliability college conducted the 2 class test online mode per semester. For getting the quires and problems raised in online teaching and learning process the local guardian (Mentor) continuously in touch with students. As the most of students in college are from rural background and facing the high speed network issue for online lectures staff members shared soft copy of notes to students on Google drive, or in pdf, word, image format in the group formed on what'sapp social media platform to make teaching and learning process simpler. Also students are allowed to make phone calls at any time 24x7 for any concept clearing.
